PROFILE

I currently work as a PhD fellow on the project called GREENLULUs – An investigation of the relationship of urban sustainability planning to the potential impacts on health as well as racial and social equity in cities. This study also looks at the role of citizens, municipalities and developers in planning for and/or responding to calls for environmental justice in so-called sustainable urban planning.

EDUCATION

- **PhD Course**, “Bio-cultural diversity and governance aspects of urban green infrastructure”, Copenhagen University, 2015
- **MSc in Environmental Science/Agriculture**, University of Hohenheim/Copenhagen University, 2012-2014
- **Political Ecology Summer School**, “Commons, Conflicts and Disasters”, Syros, Greece, July 2013
- **Permaculture Design Certificate**, Permaculture Design Course, Lyons, Colorado, USA, 2010
- **BA in Sociology**, University of Colorado at Boulder, School of Arts and Sciences, USA, 2002-2006
- **High School Diploma**, New Vista High School, Boulder, Colorado, USA, 1998-2002

EMPLOYMENT AND FIELD EXPERIENCE

PhD Fellow, Autonomous University Barcelona, Spain 2016

• PhD Project: GREENLULUs – Investigation of the relationship of urban sustainability planning to the impacts on racial and social equity in cities. This study also looks at the role of citizens, municipalities and developers in planning for and/or responding to calls for environmental justice in so-called sustainable urban planning.

Worldwatch Institute Europe, Project Manager, Communications, Research, Denmark 2015-2016

- Project Manager—organized State of the World 2016 events, communication, PR in Scandinavian countries
- Research, development and implementation of URBIA – a project on urban biodiversity in grassroots green spaces in Copenhagen
- General communications for newsletter and website content, maintained social media presence and PR

Research Assistant, Landscape Architecture and Planning at IGN, University of Copenhagen, Denmark, 2015

- Teaching assistant for *Urban Forestry, Urban Greening (UFUG)* master level course
- Assisted with research on urban gardens, community engagement and climate change adaptation
- Organization and administration for UFUG as needed

Land Steward, Black Canyon Regional Land Trust, Boulder, Colorado, USA 2014

- Conducted environmental assessments of rural conservation easement properties (annual monitoring)
- Ensured properties met legal criteria to maintain conservation area status
- Created official reports used for national re-certification of Black Canyon Regional Land Trust

Stephanie Diane Loveless

MSc Field Work, University of Sokoine, Tanzania/Tanzania Natural Resource Forum/Tanzania Wildlife Research Institute, Arusha and Morogoro, Tanzania, 2014

- Three months of fieldwork in rural communities researching the creation of community-based conservation areas and assessing governance, policy and community participation in these Wildlife Management Areas
- Research was used in a national stakeholder dialogue regarding concerns over Wildlife Management Policy

Teaching and Secretariat Assistant, Crop Sciences at PLEN, University of Copenhagen, Denmark, 2013-2014

- Teaching assistant for *Climate Change Impacts, Adaptation and Mitigation (CCIAM)* online master course
- Utilized social media and communication platforms to connect with Enveuro MSc network
- Organized community-building events
- Completed administrative tasks as needed

LANGUAGES

Mother tongue	English
Conversational	Spanish
